SPARE PARTS AND ACCESSORIES

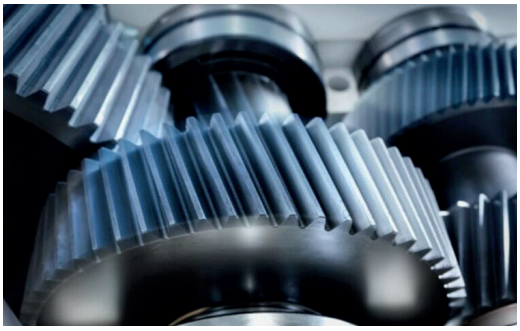

About Us

Pinova srl is an italian family run company specialized in design and production of rolling tools.

All rolling tools are built in our own factory in the province of Lecco.

The highest quality of the product is guaranteed by the use of the best materials, by innovative heat treatments and carefully selected coatings for each type of rooling tool. Threads are made according to regulations or on specific requests from the customer.

The quality of our products is carefully controlled by using the most modern technologies for dimensional control of profiles.
